

Lives We Changed

BARB'S STORY

A longtime volunteer and member, Barb met with our Client Services staff to inquire about part-time employment. Barb shared that she lives on \$700 a month, rents a room at a friend's home, relies on meals at the senior center and budgets every penny. She needed to earn \$200 more a month to pay for a new medication. A staff member determined that Barb had been incorrectly unenrolled from a state health benefit program. When that was corrected, her medication dropped to \$8 per month, a cost Barb is able to manage.
